

Massachusetts

netIEP On-Demand

A proven special education management system for Massachusetts available to you in less than 30 days.

On-Demand is in Demand - and for Good Reason

A reliable, intuitive way to manage the special education process is critical to the design of an appropriate individualized education program for each student. Historically, school districts in Massachusetts were required to hand-write IEPs or contend with less than ideal software.

netIEP On-Demand gives school districts an alternative. **Your staff can create and print compliant IEP documents, run reports, and receive e-mail alerts all through a common web browser. Administrators can easily build state reports, set up additional staff members, create goals, and export information to Excel.**

Our comprehensive special education management system has been proven in over 100 school districts across the country.

netIEP helps educators take advantage of the Internet to streamline processes and remain compliant with federal and state regulations including those relating to IDEA as well as state laws and school district policies..

NETCHEMIA™

What On-Demand means to you:

- Totally web-based; supports both Mac and PC platforms
- Free upgrades to the most recent version of the application
- A designated consultant to support your team
- A low-risk, year-to-year subscription
- Fast implementation time; within 30 days
- Simple pricing; no hidden fees
- Unmatched customer support

netIEP Intelligent Forms

Our proven intelligent forms engine provides an easy way for your staff to enter IEP data plus the assurance that your printed documents will be more compliant, professional, and parent-friendly.

✓ Unique netIEP Benefits

netIEP Customer Portal

Netchemia's commitment to quality and service extends long beyond the day you make your purchase. Access IssueTracker, a web-based tool that enables our support staff to bring assistance to issues and access to our customer discussion forum.

netIEP Sandbox Training Environment

Want a separate netIEP environment for training? Give your team the ability to train without fear and test new features without disturbing live student data. The sandbox is a clean, safe way to train people anywhere in a real world environment.

netIEP Report Wizard

Powerful, flexible reporting features to help you track, understand, and manage information. This reporting system allows you to build custom reports step-by-step without any technical knowledge. You can build, sort, print, or export professional looking reports into Excel.
